IT'S EASY TO REGISTER AND VOTE

Getting registered just means filling out a form with your name and address, and putting it in a mailbox. In three weeks you'll get a postcard that tells you where to vote on election day. The voting machine is just a touch-screen. You touch the names of the people you want to vote for. If you need help, you just ask the friendly poll worker.

Call (706) 531-0007 or e-mail democrat@charter.net. We'll bring or mail the registration form to you.

**Will you help us register your
co-workers to vote?**

Call (706) 531-0007
or e-mail democrat@charter.net.

WHY SHOULD PART-TIME WORKERS REGISTER TO VOTE ?

AND VOTE FOR DEMOCRATS ?

It's simple...

**DEMOCRATS want to raise
the minimum wage.**

**Republicans want to
eliminate it.**

Congressional salaries increase automatically with the cost of living.

Why doesn't the minimum wage increase with the cost of living?

Because Republicans don't want it to.

And raising the minimum wage isn't enough.

We need to take away the incentive to break full-time jobs up into part-time jobs. For example, we could require employers who hire more than 10% of their staff part-time to pay part-time benefits.

Perhaps you think your vote doesn't matter.

Well, that's right. The chances of your one vote making the difference in any election is too small to matter.

But your attitude makes all the difference.

Your attitude represents thousands and thousands of votes. And the only way you can change your attitude is by voting.

Perhaps you think it doesn't matter who wins.

In that case it's time to pay attention and ask, *Who always supports the rich and who supports you?*
